

Product Designer

NOR SANAVONGSAY

WEBSITES · DESKTOP · MOBILE · UI/UX DESIGN

... highlights ...

Senior Visual Designer

NOOK Media in 2012

Design the overall aesthetics of the product. Worked on creating the best experience for the user with user research data. Maintained good relationships with product managers, other designers, and application programmers.

Senior Product Designer

Zoosk in 2010

Worked with the product team to ensure the product is of the highest quality before shipping. Ensure that fit-and-finish carried through. Created prototypes to better show the vision of the design.

Senior Front-end Engineer

PEAK6 in 2008

I designed and developed multiple different apps for consumers. The apps were designed to drive traffic to the key stock trading platform. I lead the team on the front-end coding in JavaScript and layout in HTML/CSS.

Front-end Engineer

Sears Holding Corporation in 2005

I started with a small team of three designers. Together we converted hundreds of files from table-based layout to CSS layout. I introduced the team to jQuery and helped grow the Online design team.

Senior Interactive Designer

Thinktank in 2000

This new company hired me to help them bring new media to their clients. Myself and the team created award winning multimedia applications and websites. I worked on multidisciplinary projects such as voice acting and animated shorts.
